Education

University of Alberta

Class of 2025

Bachelor of Computer Science, Honours

- GPA 3.9/4.0
- All the useful things I learned would fit in a 1-month boot-camp

Experience

fr8

June 2025 - August 2025

Cohort 1.0

- Stupidly locked in on the [Factorio Learning Environment](#)
- Developing an open-ended LLM benchmark focused on system engineering for agents i.e. the next AlphaStar

Data-Driven Network and Cyber Security (DANS) Lab

September 2024 - June

Undergraduate Research Assistant

2025

- Adaptive anomaly detection systems using provenance graphs, supervised by Dr. Euijin Choo

MANGA NLP Lab

January 2025 - April 2025

Undergraduate Research Assistant

- Compression and quantization methods for large language models, supervised by Dr. Lili Mou

Hochschule für Technik und Wirtschaft Dresden

May 2023 - August 2023

Summer Research Intern

- DAAD RISE Intern in reinforcement learning on the Franka Emika Robot
- Trained 7-DOF robotic arms in Nvidia Omniverse Isaac Sim to perform basic manipulation tasks using TRPO and PPO

Projects

Hugging Face Ultra Scale Playbook Series

June 2025

- Created a [16-part video series](#) covering the Hugging Face Ultra Scale Playbook to learn large-scale GPU orchestration through teaching it, recognized by Hugging Face CSO Thomas Wolf

Founder - [UofA Run Club](#) (UofARC)

August 2024 - April 2025

- Created a weekly run club to gather community members together bright and early

Founder - [UofACarpool](#)

March 2024 - April 2025

- Wrote algorithm and website for matching service that pairs university commuters to carpool together
- Featured on the [University Newspaper](#)

Extracurricular

German Academic Exchange Service (DAAD)

August 2024 - July 2025

Young Ambassador

- Chosen as the unique ambassador of the DAAD for the UofA

Interests

- Avid language learner (French and German) and runner (longest distance: 50 kilometers)
